

143 BRONZE "Y" STRAINER

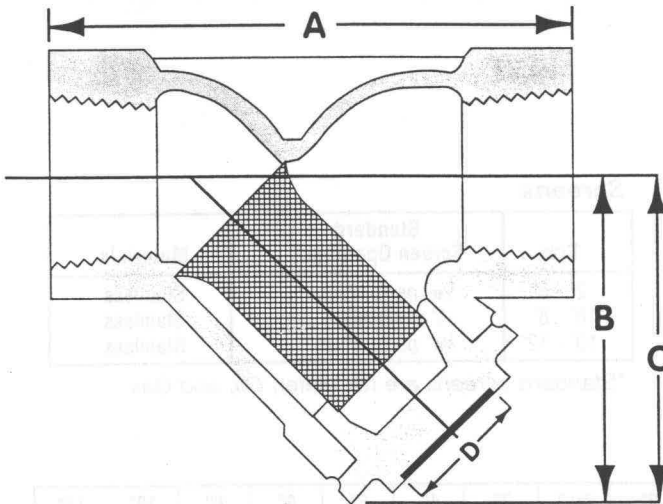

With Blow-off Hole 200 WOG

MODEL 143 "Y" STRAINERS

are constructed of bronze. They have a machined seat in the body and tapered seat in the cap for accurate screen alignment. All sizes are provided with NPT blow-off connections.

SCREEN: The screen has a special flared opening on the upstream end to provide unrestricted flow through the strainer. Screens on all sizes are standard 20 mesh perforated stainless steel. Screens available up to 100 mesh upon request.
