

# Powder-Coated Expanded Metal Enclosures

# GUARDSHACK™ AND COAST GUARDSHACK

**GuardShack** expanded metal enclosures are vandal and theft resistant and are manufactured to protect any type or size of backflow assembly. They have no sharp edges so it's perfect for schools, parks, and other meeting places where people can come into close contact with a backflow assembly. All **GuardShack** enclosures are powder coated in our standard Forest Green and Woodlands Tan colors. All **Coast GuardShack** enclosures are constructed of 304 stainless steel, sandblasted to remove all sharp edges and burrs typically found on stainless steel expanded metal. The "Silver Satin" finish of the **Coast GuardShack** can be further enhanced and protected by the application of an optional ultra-strong Electro Polish Treatment, for a chrome like finish.

MODEL	CENTERLINE DIMENSIONS	INSIDE DIMENSIONS	WT
GS-.5	12" w x 18" h x 12" l	10" w x 18" h x 10" l	34
